

Anthony Valera

Front End Developer

anthonyvalera.com

hello@anthonyvalera.com

I enjoy writing HTML/CSS/JS (really), developing for WordPress, and being a part of a beautiful, efficient web.

(916) 993 - 0397

2017-2013

Simply Music LLC

Lead Front End Developer

At Simply Music, I lead the development team in creating new tools for our music teachers and students. Utilizing a LAMP stack and Wordpress, we've created a network that handles 10k+ users, 12+ sites, and two large scale intranets. The front-ends utilize a combination of different Javascript frameworks and HTML/CSS.

2017

Sacramento TV Network

Full Stack Developer

At SacTV, I manage our online look and functionality and ensure that our main site runs smoothly and efficiently. As tech lead, I develop and research new and future projects, create tools for hosts, and work on technology needs with local businesses.

2017-2013

Freelance

Since 2013, I've been a part of over 50 projects and have helped launched websites in music, art, photography, service, TV, and many other different industries.

2013-2011

Launch Solutions LLC

Jr. Web Developer

I began my professional career working on small development projects at the creative agency, Launch Solutions. After a three month internship, I was offered a Jr. Web Developer position where I helped in front-end development, developing widgets and tools for client's websites and projects.
