Anthony Valera

ReactJS Organizer | Front End Developer

I specialize in front-end web development and strive to support the tech community by organizing and speaking at events, and mentoring other software developers.

2020 - 2018

Mirum Agency
Sr. Front End Developer

At Mirum, I plan, architect, and prototype features and user interfaces for Qualcomm.com.

- Defined strategies and led optimization efforts for product detail pages that increased UI performance by 65%
- Developed an extensible integration testing suite that increased global code coverage by 20% in our central GraphQL-Typescript-Express server
- Planned and implemented an uplift of our front end infrastructure, using functional programming techniques and modern front-end design patterns

2018 - 2017

Origin Code Academy
Instructor / Front End Engineer

At Origin Code Academy, I mentored and coached students through learning software development by developing full-stack JavaScript applications.

- Produced material for the curriculum and conducted forums for understanding concepts like async programming, state management, and data flow
- Instructed students on JS fundamentals, CSS preprocessors, server-side JS, React/Redux, SQL/NoSQL DBs, testing, and agile work environments
- In collaboration with career services, implemented additional procedures to train students that led to a 100% job placement rate

2017 - 2013

Simply Music LLC
Lead Front End Developer

At Simply Music, I led an international front-end development team, developing intranets and applications for music teachers and students.

- Formed a team to build a platform enrolling 10k users within its first year
- Set up a new development pipeline that prompted an overhaul of the online brand

2013 - 2011

Launch Solutions LLC
Web Developer

At Launch Solutions, I assisted in the development of custom solutions for various clients.

- Developed mobile marketing features for a renowned L.A. talent agency

SKILLS

ADVANCED

JavaScript	Mentoring
React	Apollo
Redux	GraphQL
CSS / SCSS / LESS	Node.js
CSS-in-JS	Express
Typescript	Jest / Mocha

PROFICIENT

Public Speaking	Learning Management
Agile / SAFe	SQL/NoSQL
Testing Libraries	CS Principles
Build Tools	Design Patterns

EXPLORING

Microfrontends	AWS
Vue	Svelte
Relay	Cypress

OTHER

React JS Organizer and Speaker
sandiegojs.org - 2019

Instructor for top-ranked U.S. code academy
origincodeacademy.com - 2017

Web Design Community Award Winner
reddit.com/r/web_design - 2014
